CONTENTS OF VOLUME 23

NUMBER 1

B. Barrera-Mera and E. Barrera-Calva	The Cartesian clock metaphor for pineal gland operation pervades the origin of modern chronobiology	1
B. P. Halpern	Amiloride and vertebrate gustatory responses to NaCl	5
N. E. Rowland	Brain mechanisms of mammalian fluid homeostasis: insights from use of immediate early gene mapping	49
A. Ally	Ventrolateral medullary control of cardiovascular activity during muscle contraction	65
S. M. Pellis and V. C. Pellis	Play fighting of rats in comparative perspective: a schema for neurobehavioral analyses	87
R. F. Lundy Jr	Potential mechanisms for functional changes in taste receptor cells following sodium deficiency in mammals	103
T. Kauppila	Correlation between autotomy-behavior and current theories of neuropathic pain	111
T. Myhrer	Adverse psychological impact, glutamatergic dysfunction, and risk factors for Alzheimer's disease	131

NUMBER 2

J. Rodgers	Preface	141
S. Parmigiani, P. F. Ferrari and P. Palanza	An evolutionary approach to behavioral pharmacology: using drugs to understand proximate and ultimate mechanisms of different forms of aggression in mice	143
M. Kršiak, J. Podhorná and K. A. Miczek	Aggressive and social behavior after alprazolam withdrawal: experimental therapy with Ro 19-8022	155
M. R. Kruk, K. G. C. Westphal, A. M. M. Van Erp, J. van Aspersen, B. J. Cave, E. Slater, J. de Koning, J. Haller	The hypothalamus: cross-roads of endocrine and behavioural regulation in grooming and aggression	163
R. J. Blanchard, M. A. Hebert, L. Dulloog, N. Kaawaloa, O. Nishimura, D. C. Blanchard	Acute cocaine effects on stereotypy and defense: an ethoexperimental approach	179
K. Antoniou, E. Kafetzopoulos, Z. Papadopoulou-Daifoti, T. Hyphantis and M. Marselos	d-amphetamine, cocaine and caffeine: a comparative study of acute effects on locomotor activity and behavioural patterns in rats	189
G. Laviola and M. L. Terranova	The developmental psychobiology of behavioural plasticity in mice: the role of social experiences in the family unit	197
B. Olivier, H. E. Molewijk, J. A. M. van der Heyden, R. van Oorschot, E. Ronken, J. Mos and K. A. Miczek	Ultrasonic vocalizations in rat pups: effects of serotonergic ligands	215

O. E. Della Paschoa, M. R. Kruk and M. Danhof	Pharmacokinetic–pharmacodynamic modelling of behavioural responses	229
F. G. Graeff, C. F. Netto and H. Zangrossi Jr.	The elevated T-maze as an experimental model of anxiety	237
B.-J. Cao and R. J. Rodgers	Tolerance to acute anxiolysis but no withdrawal anxiogenesis in mice treated chronically with 5-HT_{1A} receptor antagonist, WAY 100635	247
R. M. M. De Almeida, M. Giovenardi, H. Charchat and A. B. Lucion	8-OH-DPAT in the median raphe nucleus decreases while in the medial septal area it may increase anxiety in female rats	259
S. M. Weiss, G. Wadsworth, A. Fletcher and C. T. Dourish	Utility of ethological analysis to overcome locomotor confounds in elevated maze models of anxiety	265
N. J. Starkey and C. A. Hendrie	Importance of gender for the display of social impairment in pairbond disrupted gerbils	273
H. M. T. Barros and M. Ferigolo	Ethopharmacology of imipramine in the forced-swimming test: gender differences	279
F. Sams-Dodd	Effects of diazepam, citalopram, methadone and naloxone on PCP-induced stereotyped behaviour and social isolation in the rat social interaction test	287
E. Fuchs and G. Flügge	Stress, glucocorticoids and structural plasticity of the hippocampus	295
R. Adamec, P. Kent, H. Anisman, T. Shallow and Z. Merali	Neural plasticity, neuropeptides and anxiety in animals — implications for understanding and treating affective disorder following traumatic stress in humans	301
F. Ohl and E. Fuchs	Memory performance in tree shrews: effects of stressful experiences	319
N. G. Simon, A. Cologer-Clifford, S.-f. Lu, S. E. McKenna and S. Hu	Testosterone and its metabolites modulate $5HT_{1A}$ and $5HT_{1B}$ agonist effects on intermale aggression	325
J. Haller, J. Halasz, G. B. Makara and M. R. Kruk	Acute effects of glucocorticoids: behavioral and pharmacological perspectives	337
A. K. Dixon and H. U. Fisch	Animal models and ethological strategies for early drug-testing in humans	345

NUMBER 3

A. Siegel, T. A. P. Roeling, T. R. Gregg and M. R. Kruk	Neuropharmacology of brain-stimulation-evoked aggression	359
T. S. Lorig	On the similarity of odor and language perception	391
C. Hölscher, J. Gigg and S. M. O'Mara	Metabotropic glutamate receptor activation and blockade: their role in long-term potentiation, learning and neurotoxicity	399

D. Maestripieri	The biology of human parenting: insights from nonhuman primates	411
F. Bellisle	Glutamate and the UMAMI taste: sensory, metabolic, nutritional and behavioural considerations. A review of the literature published in the last 10 years	423
R. H. Porter and J. Winberg	Unique salience of maternal breast odors for newborn infants	439
D. M. Wilkie, R. J. Willson and J. A. R. Carr	Errors made by animals in memory paradigms are not always due to failure of memory	451

NUMBER 4

L. Thibault and D. A. Booth	Macronutrient-specific dietary selection in rodents and its neural bases	457
A. Limoge, C. Robert and T. H. Stanley	Transcutaneous cranial electrical stimulation (TCES): a review 1998	529
K. M. Hegadoren, G. B. Baker and M. Bourin	3,4-Methylenedioxy analogues of amphetamine: defining the risks to humans	539
D. R. Pieper and S. W. Newman	Neural pathway from the olfactory bulbs regulating tonic gonadotropin secretion	555
A. Nehlig	Are we dependent upon coffee and caffeine? A review on human and animal data	563
P. Vezina and J.-H. Kim	Metabotropic glutamate receptors and the generation of locomotor activity: interactions with midbrain dopamine	577
J. Menard and D. Treit	Effects of centrally administered anxiolytic compounds in animal models of anxiety	591

NUMBER 5

E. Gahtan and J. B. Overmier	Inflammatory pathogenesis in Alzheimer's disease: biological mechanisms and cognitive sequeli	615
J. L. Kavanau	Adaptations and pathologies linked to dynamic stabilization of neural circuitry	635
M. Leshem	The ontogeny of salt hunger in the rat	649
E. I. Moser and M.-B. Moser	Is learning blocked by saturation of synaptic weights in the hippocampus?	661
A. S. Fleming, D. H. O'Day and G. W. Kraemer	Neurobiology of mother–infant interactions: experience and central nervous system plasticity across development and generations	673
M. B. Hennessy	Social influences on endocrine activity in guinea pigs, with comparisons to findings in nonhuman primates	687
K. Vedhara, J. D. Fox and E. C. Y. Wang	The measurement of stress-related immune dysfunction in psychoneuroimmunology	699
M. G. LeSage, D. Stafford and J. R. Glowa	Preclinical research on cocaine self-administration: environmental determinants and their interaction with pharmacological treatment	717

M. Fendt and M. S. Fanselow	The neuroanatomical and neurochemical basis of conditioned fear	743
	Erratum	761

NUMBER 6

J. Bancroft	Central inhibition of sexual response in the male: a theoretical perspective	763
Y. Sakurai	How do cell assemblies encode information in the brain?	785
D. A. Powell	A behavioral stages model of classical (Pavlovian) conditioning: application to cognitive aging	797
H. R. Arias	Role of local anesthetics on both cholinergic and serotonergic ionotropic receptors	817
J. Zohar, R. Gross-Isseroff, H. Hermesh and A. Weizman	Is there sexual dimorphism in obsessive-compulsive disorder?	845
M.-L. G. Wadenberg and P. B. Hicks	The conditioned avoidance response test re-evaluated: is it a sensitive test for the detection of potentially atypical antipsychotics?	851
M. L. Brandão, V. Z. Anseloni, J. E. Pandóssio, J. E. De Araújo and V. M. Castilho	Neurochemical mechanisms of the defensive behavior in the dorsal midbrain	863
S. Bruehl, J. A. McCubbin and R. N. Harden	Theoretical review: altered pain regulatory systems in chronic pain	877

NUMBER 7

R. J. Rodgers, S. Parmigiani, R. M. Nesse and P. Palanza	Ethology and biomedical science	893
R. M. Nesse	Proximate and evolutionary studies of anxiety, stress and depression: synergy at the interface	895
A. Troisi	Ethological research in clinical psychiatry: the study of nonverbal behavior during interviews	905
A. Sgoifo, J. Koolhaas, S. de Boer, E. Musso, D. Stilli, B. Buwalda and P. Meerlo	Social stress, autonomic neural activation, and cardiac activity in rats	915
J. M. Koolhaas, S. M. Korte, S. F. De Boer, B. J. Van Der Vegt, C. G. Van Reenen, H. Hopster, I. C. De Jong, M. A. W. Ruis and H. J. Blokhuis	Coping styles in animals: current status in behavior and stress-physiology	925

M. Kramer, C. Hiemke and E. Fuchs	Chronic psychosocial stress and antidepressant treatment in tree shrews: time-dependent behavioral and endocrine effects	937
G. Flügge	Effects of cortisol on brain alpha$_2$-adrenoceptors: potential role in stress	949
S. Parmigiani, P. Palanza, J. Rodgers and P. F. Ferrari	Selection, evolution of behavior and animal models in behavioral neuroscience	957
A. Holmes and R. J. Rodgers	Influence of spatial and temporal manipulations on the anxiolytic efficacy of chlordiazepoxide in mice previously exposed to the elevated plus-maze	971
D. C. Blanchard and R. J. Blanchard	Cocaine potentiates defensive behaviors related to fear and anxiety	981
G. Laviola, W. Adriani, M. L. Terranova and G. Gerra	Psychobiological risk factors for vulnerability to psychostimulants in human adolescents and animal models	993
P. Palanza, F. Morellini, S. Parmigiani and F. S. vom Saal	Prenatal exposure to endocrine disrupting chemicals: effects on behavioral development	1011
A. Aubert	Sickness and behaviour in animals: a motivational perspective	1029
M. Kavaliers, D. D. Colwell and E. Choleris	Parasites and behavior: an ethopharmacological analysis and biomedical implications	1037
A. Tobena, I. Marks and R. Dar	Advantages of bias and prejudice: an exploration of their neurocognitive templates	1047

NUMBER 8

G. P. McNally	Pain facilitatory circuits in the mammalian central nervous system: their behavioral significance and role in morphine analgesic tolerance	1059
G. F. Weber	Final common pathways in neurodegenerative diseases: regulatory role of the glutathione cycle	1079
F. J. van der Staay, R. J. Fanelli, A. Blokland and B. H. Schmidt	Behavioral effects of apamin, a selective inhibitor of the SK_{Ca}-channel, in mice and rats	1087
A. Meneses	5-HT system and cognition	1111
A. Argiolas	Neuropeptides and sexual behaviour	1127

UMI

INCORRECT YEAR, SHOULD READ 1999.
